

World Inside Designer Jeans

Bursting with vibrant imagery captured in unique virtual world environments, and the simple beauty of conventional photography and graphic artistry, **WORLD INSIDE DESIGNER JEANS** opens a whole new dimension—uninhibited insight—into the “real-world” American Literary Arts scene. It submerges audiences into a world of flirtatious fun...deeply intimate and overwhelmingly intense moments of emotional detachment, personal bondage (...yeah, *that* kind of bondage!) and spiritual enlightenment. It is a mystical and therapeutically thought-provoking combination of human experiences, coupled with the liberating sensation that comes from sharing those experiences out loud! (...poetry slam, anyone?)

Exposing the bare-naked details found at the core of her own psyche and Inner-Child spirit, **PACO-MICHELLE**'s “Electronic Poetry” entices readers to dig in and “Follow The Widow” on a virtual journey—a creative-spiritual path—to penetrating (...and clearing!) underlying ego constraints...overcoming traumatic experiences...rejuvenating creative energies...and just enjoying LIFE! Readers are able to reach to universal principals and lessons found at the core of Buddhism, the Tarot, Native American culture, and many other practical belief systems (both ancient and contemporary) that acknowledge and embrace the eternal Cycle of Life; the essential connectedness between mind, body, spirit, and the journeys we embark upon during our time here in this world. Dig it!
